INTEGRATED MANAGEMENT SYSTEM POLICY - SGI

Multilog is a company that, in its journey, seeks to store and transport cargo with respect for people, institutions and the environment, effectively contributing to the sustainable development of our business and society, with ethics and transparency.

Our commitment, therefore, is to seek customer satisfaction with the services provided, respecting the legislation and the voluntary commitments assumed. We value our human capital by creating a healthy and safe work environment that encourages continuous improvement in our operations. We respect the environment and value the conscious use of resources, relying on everyone's commitment to ensure compliance in our deliveries.
